

Biomea Fusion to Present at the 43rd Annual J.P. Morgan Healthcare Conference

January 6, 2025

REDWOOD CITY, Calif., Jan. 06, 2025 (GLOBE NEWSWIRE) -- Biomea Fusion, Inc. ("Biomea") (Nasdaq: BMEA), a clinical-stage biopharmaceutical company dedicated to discovering and developing oral covalent small molecules to treat and improve the lives of patients with diabetes, obesity, and genetically defined cancers, today announced today that Thomas Butler, Chief Executive Officer and Chairman of the Board, will present at the 43rd Annual J.P. Morgan Healthcare Conference on Wednesday, January 15, 2025, at 1:30 PM Pacific Time / 4:30 PM Eastern Time. Additionally, Biomea's management team will be hosting one-on-one meetings throughout the conference, taking place from January 13 to January 16.

A live audio webcast of the presentation can be accessed [here](#) or by visiting the Investors & Media section of Biomea's website at <https://investors.biomeafusion.com/news-events/events>. A replay of the webcast will be available following the live presentation.

About Biomea Fusion

Biomea Fusion is a clinical-stage biopharmaceutical company focused on the discovery and development of oral covalent small molecules to improve the lives of patients with diabetes, obesity, and genetically defined cancers. A covalent small molecule is a synthetic compound that forms a permanent bond to its target protein and offers a number of potential advantages over conventional non-covalent drugs, including greater target selectivity, lower drug exposure, and the ability to drive a deeper, more durable response.

We are utilizing our proprietary FUSION™ System to discover, design and develop a pipeline of next-generation covalent-binding small-molecule medicines designed to maximize clinical benefit for patients. We aim to significantly improve disease treatments for the patients we serve. We aim to cure.
